Feel secure the moment you arrive.

Surrounded by the gently undulating hills of the Nockberge, there is a holiday home-from-home where a sense of relaxation and security wafts over you the moment you step through the door: the Hotel Pulverer.

Here heart-warming hospitality meets with tranquility and appreciation. While you take just a step away from the hotel and enjoy winter's loveliest sides tobogganing, skiing or on a leisurely winter hike, inside the hotel spa the healing spring water is bubbling up from the depths of the Nockberge.

There are special powers slumbering in the gentle hills of the Nockberge that make it easy to rediscover yourself, whether you are skiing, cross-country skiing or winter hiking – and you are sure to feel them!

In the Nockberge in Carinthia you will experience all manners of bright spots, because the sun shines more often here than it does elsewhere. So don't forget your sunglasses!

Your source of power in the Carinthian mountains

Tobogganing, snowshoe hikes, skiing, a trip in a horse-drawn sleigh ... you can look forward to a picture-book winter!

Did you know that the thermal water at the Pulverer has a healing effect and can prevent aching muscles? Best of all, find out for yourself by bathing in the Pulverer pools or visit pulverer.at/thermalheilwasser.
